## SKILLS & TECHNOLOGIES

**Expertise:** Javascript | React | Firebase | JWT | Tailwind CSS | DaisyUI | Material Tailwind

**Comfortable :** Express.js | Rest APIs | MongoDB | Mongoose | Next.js

**Tools:** ChatGPT | VS Code | Git & GitHub

**Interpersonal Skills:** Hard Working | Quick Learner | Team Work | Responsibility

## PROJECTS

### Survey Ocean

[Live Link](#) | [Server](#) | [Client](#)

Polling and Survey Application | Nov 23, 2023 - Nov 29, 2023

- **Payment Integration:** Implemented a secure payment system for users to upgrade to pro-user status, showcasing proficiency in integrating payment gateways within the MERN stack.
- **Role-Based Access Control:** Established granular user roles (user, surveyor, pro-user, admin) with distinct permissions, ensuring effective management of users and survey-related functionalities.
- **Comprehensive Survey Functionality:** Engineered a feature-rich survey platform allowing creation, voting, commenting (for pro-users), result viewing, and reporting, demonstrating expertise in interactive survey experiences within the MERN stack.

**Technologies:** React | Mongoose | Stripe | Tanstack Query | JWT | Headless UI | Firebase | MongoDB

### Talenthub

[Live Link](#) | [Server](#) | [Client](#)

MERN-Stack Web Marketplace | Nov 4, 2023 - Nov 9, 2023

- **Engaging Interface & Authentication:** Designed an appealing interface with strong visuals and user-friendly aesthetics. Implemented secure authentication features for user registration/login, ensuring data integrity.
- **Efficient Job & Bid Management:** Engineered a streamlined system for managing job postings, enabling addition, update, and deletion of listings. Implemented a seamless bidding process within dynamic job details.
- **Responsive Design & Device Compatibility:** Ensured optimal responsiveness across devices—mobile, tablet, and desktop—enhancing user experience and accessibility on multiple platforms.

**Technologies:** React | Express | Tanstack Query | JWT | Firebase | MongoDB

### Foody

Food and Beverage Brand Website | Oct 17, 2023 - Oct 20, 2023

- **Brand-Focused Product Showcase:** Developed a website within the Food and Beverage category highlighting renowned brands like Coca-Cola, McDonald's, Starbucks, PepsiCo, etc., offering a tailored platform to explore brand-specific products.
- **Efficient Product Management:** Engineered a system allowing seamless addition, update, and deletion of products via protected routes, enhancing user interaction through an intuitive Add Product interface.
- **Streamlined User Authentication:** Implemented secure user authentication, registration, and login features, ensuring error handling for password criteria and email matching, prioritizing both security and usability.

**Technologies:** React | Express | MongoDB | Framer Motion | Firebase

## EDUCATION

**2020 - Present | Rajshahi Polytechnic Institute**

Diploma in Engineering - Mechatronics Department

## LANGUAGES

**Bangla** - Native

**English** - Fluent
